WISMAR REGIONAL

Baltic Sea – appealing to all senses.

Our local Baltic Sea region is full of hidden treasures. And now we are also putting the forces of nature to work in our SPA. The berries of the sea buckthorn excite with their high vitamin C content and considerable amounts of provitamin A and vitamin E as well as carotinoids, flavonoids, minerals, and micronutrients. Together with nutritious nacre essence, they form an intensively nurturing combination. Just sit back and indulge in soothing relaxation.
